Filey Brig is the name given to the long low-lying reef which stretches seaward from the northern extremity of Filey Bay. It is normally uncovered at all states of the water, but progress along the rocks is somewhat dangerous at or near high tide.

OK Tuesday afternoon.  
I shall be home soon  
after 7%. When you  
can call tell them.  
I suppose you won't be  
here before 3%, as  
Bobbie will be at  
3 Chafford for dinner,  
will be back by 3%.
